

The image shows three large drilling rigs in silhouette against a dramatic sunset sky. The sky is filled with horizontal bands of orange, red, and yellow, with some darker clouds. The rigs are tall, lattice-structured towers with various platforms and equipment. The overall scene is industrial and atmospheric.

Spare Parts & Products for Drilling Field

Is your one source for Equipment's, Spare Parts & Industrial Supplies

PWL Oil & Gas Service Provider founded in 2010 is professionally managed and a fast growing equipment, spare parts, industrial supplies sales and service provider in UAE.

PWL Oil & Gas Service Provider constantly analyzes market needs in the region to develop the right mix of products and services across the construction domain.

Our commitment is to provide quality products & services and bring to market the most innovative equipments to meet customer requirements on time.

We are partnered with some of the top manufactures from across the globe specialized in their respective product domains and represent these brands in the United Arab Emirates as their the Authorized sales, spare parts and service providers for the region.

Mud System

Spare Parts for Mud System

Mud Pump Bearing
(to be manufactured on customer's Drawings if customized)

Mud tank

Fitting, Valves & Flanges for pipeline and Manifolds
(BW and SW fittings for mud pipes
AISI 4130 or API5L)

Spare and Expendable parts for centrifugal Pumps
(original spares Forum SPD and Mission)

The image shows a large industrial facility, likely an oil or gas processing plant. In the foreground, a prominent yellow piece of machinery, possibly a pumpjack or a similar lifting device, is visible. It has a large, ribbed cylindrical component and is supported by a complex metal structure. The background features a dense network of steel beams, walkways, and other industrial equipment under a clear sky. The overall scene conveys a sense of heavy industrial activity.

Air & Hydraulic

Spare Parts for Air & Hydraulic Circuits

Pressure Gauges
(brands: Wika, Nuova Fima
etc..)

**Hydraulic & Pneumatic
Hoses & Fittings**
(Parker brand or equivalent)

**Hydraulic & Pneumatic
Filters**

**Electric & Diesel
Air Compressor**

A large, green industrial generator is the central focus of the image. It is mounted on a heavy-duty metal frame and features a prominent control panel with a digital display and several buttons. The generator is surrounded by various pipes, conduits, and electrical components. In the background, other similar units and industrial infrastructure are visible, including a large white duct and a complex network of red and black cables. The floor is a light-colored concrete, and there are yellow safety mats placed around the base of the generator. The overall environment is a well-lit industrial facility.
